### Relax on holiday knowing your property is secure!

With the warmer weather often comes an increase in burglary figures with opportunists taking advantage of open doors and windows or people away on holiday. With this in mind we attempt to help you to make the most of the summer months, without the stress of burglaries. Unsurprisingly, August is the busiest holiday month in the UK with more than seven million people holidaying abroad and millions more travelling to holiday spots at home. With 43 per cent of burglaries being committed when a property is empty, it's worth putting in a little effort to deter would-be thieves from both work and home. Our decades of experience mean we can usually predict an increase in alarm activations and calls from our clients.
